Students are visiting and staying at the various villages for the social internship. During their stay they will interact with people and sarpanch for getting information and different problems in villages. After identification they will try to get the probable solution for those problems.

#### **The Practice –**

1. To organize visit of group of students to selected village and stay there for two weeks.
2. To arrange meetings to understand needs and problems of villagers.
3. To analyze identified problem topics.
4. To find probable solution for the problems identified in village.
5. To prepare Internship report.
6. To present report to the concern guide and team.
7. To provide financial support from institute for selected idea of project after related presentation.

#### **Evidence of Success –**

1. Increase in social connection with villages.
2. Increase in thinking capacity to solve the real-life problems of society.
3. Increase in problem-based learning.

#### **Resources Required –**

Each group is guided by faculty mentors.

## 2. Title of the Practice - Project Grant to College Students (PGCS) scheme

### Objectives of the Practice –

To motivate multidisciplinary, industry and society-based student's projects

### Context –

The final year students who makes good projects would be useful for society and industry may require some financial assistance. To fulfill their needs, institute had taken up initiative for financial support to some of the best project groups from every department.

### The Practice –

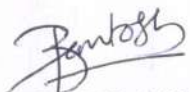

1. Students, seeking project support under this scheme are required to submit proposal through proper channel before internal examination of 1<sup>st</sup> semester
2. Screening of submitted forms to be done by the R & D committee.
3. The presentation of project group is examined by External Examiners and Results of the sanctioned projects will be declared by 15 days after PGCS presentation.
4. PGCS scheme may provide financial assistance up to Rs. 30,000/- or actual expenditure whichever is less for the college students for project in various branches.
5. The completed projects shall be assessed and graded by a duly constituted expert committee by the college.

### Evidence of Success –

1. Increases best project ideas
2. Increase in student research publications
3. Conversions of projects into product

### Resources Required–

1. Human Resources from different core and service industries for evaluation
2. E-journal support, plagiarism software etc.
