If you want to improve your program of study or department, what would be your recommendations?

११ प्रतिसाद

More site visit, civil engineering related software course like autocad, stad pro, etabs leaning in college required. Estimation of quantities in MS excel.

Involve student in actual site project with professor at site so that in professional life it will be helpful for student to perform well

Everything is excellent.

Site visits should be there as much as possible. And divisions should be as per the intrest of students like for government jobs intrested batch, private firms intrested batch and entrepreneur batch.

Suggestions for Improvement

८ प्रतिसाद

No

Practicals are more research and industry specific.

More practIcal based assignments need to be included

Need more sophisticated instruments for practical and real time sample analysis

Nil

More site visits required
