About Mechanical Engineering Students Association (MESA)

MESA is Mechanical Engineering Student Association. The MESA was formed to bring about the technical development of students by organizing seminars, workshops and other activities and also to improve non-technical abilities of students by engendering good communication skills, managerial abilities, presentation skills and team work.

Objectives of MESA:

- To Promote the interaction between academia and industry by organizing industrial visits, special lectures and facilitate in industrial training
- Promoting the interests of students in various technical areas pertaining to mechanical engineering
- To encourage students of the mechanical Engineering department to develop their personal skills, like event management & time management by organizing inter & inter Collegiate Events
- To bring about the technical development of students by organizing seminars, workshops and other activities.

Outcomes of MESA:

The students will be able to

- Learn how to talk to co-students from different cultures (social skills)
- Share the knowledge of cutting-edge-technologies (professional skills)
- Develop communication skills when interacting with co-students (Personality development)
- Become part of the executive body and take up the responsibility or challenge (leadership skills)
